

Central Coast Seminoles

“Excellence in Semi-Pro Football”

Dear Players:

I would like to welcome you to **Central Coast Seminoles** & wish you every success in your football experience throughout your time spent with us.

Semi-Pro football produces an environment similar to the professional football world, where the win becomes the priority, and the players work together as a family! Together we are here to guide, support & develop the player and to best utilize their football skills.

Our philosophy places development over the win, we believe that players should be allowed to make mistakes but feel confident to express themselves. Our goal as a semi-pro team is to develop each & every player to perform, technically, physically & tactically, to the best of their ability, to develop an individual player that understands the game and can play within the team concept, to develop a player that has the overall skills to become an athlete, a ‘winner’ that is respected on the field, but more importantly respected off the field!

In conclusion, are you that player, the one who aspires today to inspire tomorrow? If you are, then you have come to the semi-pro team that will, with the support of our team, help you fulfill your dreams & ambitions.

Yours in football,

Luis Ibarra, Owner

Melissa Gomez, Co-Owner

Mark Gomez-Director of Operations

Central Coast Seminoles
